

Your Career as a Water Operator

Consider a career that connects you to the land, the water, and your community!

- Water operators are highly-skilled, in-demand professionals with great benefits.
- Responsible for the day-to-day operations and maintenance of the water treatment and/or wastewater facilities – no two days are ever the same!
- Room to advance and gain further experience.
- Become a front-line responder to water challenges.
- Great work-life balance.
- Lots of opportunity for overtime.
- Play an important role in the community.
- Be a proud part of safe water solutions and water protection efforts.

“

Being a water operator means **I'm playing an important part in my community** - but I didn't know how important this role was before I worked here.

Jo-Dee Parenteau, Water First Graduate and Water Operator, Little Saskatchewan First Nation

Founded in 2009, Water First addresses drinking water and environmental water challenges in Indigenous communities across Canada through education, training, and meaningful collaboration.
